Neurofeedback Can Train The Brain Safely And Can Help Overcome Most Neurological Conditions.

- ✓ Non-invasive
- ✓ Cost Effective
- ✓ Drug Free
- ✓ Often Permanent
- ✓ Enjoyable
- ✓ Decades of Research

Neurofeedback is a computer based method for teaching the brain to function in a more balanced and healthful way. It is an effective alternative to drugs, counseling and surgery.

Bring this postcard in to get special pricing on a QEEG Brain Map, which can accurately identify the problem areas in the brain. It could very well be the best decision you ever make for improving your health.
